## **DETAILED ACTION**

### **EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows, due to obvious grammatical errors:

In claim 13, line 3; replace "ahead" with --a head--.

In claim 13, line 4; replace "an eyebolt" with --said eyebolt--.

#### ***Allowable Subject Matter***

Claims 1-13 are allowed. The following is an examiner's statement of reasons for allowance: The claims are allowable over the prior art of record because the teachings of the references taken as a whole do not teach or render obvious the combination set forth, including that of locking device having an eyebolt, a protective bracket with a central housing having a hole that is aligned with the eye of the eyebolt, and at least one bracket arm, and a lock that extends through the hole and the eye to interlock the bracket with the eyebolt.

U.S. Patent Number 6,390,239 to McClain discloses a locking device having a bolt with a threaded shaft, a protective bracket having a central housing and two bracket arms that extend from the central housing, where the central housing receives the bolt therein, and where the central housing defines a hole that is aligned with the bolt, and a lock that extends into the hole. However, McClain does not disclose the bolt being an eyebolt, and where the lock extends through the hole and the eye of an eyebolt.

Art Unit: 3676

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
